EDUCATION	**Bachelor of Science in Computer Science,** May 2024 The University of Alabama, Tuscaloosa, AL Computer Science **Minors:** Mathematics, History GPA: 3.542/4.000 Honors College **Master of Business Administration**, May 2025 The University of Alabama, Tuscaloosa, AL

WORK EXPERIENCE

Software Developer, May 2023 – present
SmartLam North America, Dothan, AL
- Develop Python-based software to optimize production scheduling
- Conduct analysis to align software with manufacturing needs
- Automate inventory management using Zoho Creator

College of Engineering Technical Support, May 2021 – May 2023
The Cube, University of Alabama Department of Engineering, Tuscaloosa, AL
- Operating 3D printers, scanners, and laser cutters
- Managing order queue
- Creating 3D models in CAD software, especially SolidWorks

3D Design Intern, May 2022 – August 2022
NGE Equipment, Tuscaloosa, AL
- Operating and maintained 3D printers for prototyping
- Programming 3D printers directly with g-code and scripted for Cura
- Developing in Python with Kivy framework

LEADERSHIP

Crimson Smash Club President, April 2021 – January 2022
University of Alabama, Tuscaloosa, AL
- Negotiating sponsorships from companies
- Scheduling weekly and monthly events of 100+ attendees

COMPUTER SKILLS

Proficient in Python programming language
Proficient in version control with Git and GitHub
Proficient in containerization with Docker
Proficient in Django and Flask web development frameworks
Proficient in PyQt6 graphical user interface toolkit
Proficient in database operations using SQL
Proficient in statistical analysis and machine learning
Experience in development in both Linux/Unix and Windows environments

INNOVATIVE SKILLS

Developed a [football analytics website](#) that uses machine learning to predict play calls
Over 9 years of 3D printing experience, including CAD modeling, 3D printer maintenance, and programming
Experience creating machine learning models using TensorFlow and Scikit-Learn
Developed desktop application to automate manufacturing schedules, saving employer over $20,000 per month in worker productivity
Developed AI-powered web application to connect Alabama residents to medical services
